

SECURE FEDERAL SOLUTIONS

Sourced. Staged. Delivered.

Arizona-based prime contractor and value-added reseller delivering electronics, computing hardware, and mission equipment to federal agencies, the DLA, and the U.S. military: on schedule, on spec, on contract.

Core competencies

- **Electronics and computing hardware.** Circuit boards, computing hardware, embedded systems, and specialized electronics built to federal spec.
- **Communications hardware.** Radios, antennas, connectors, and tactical comms equipment for fielded units and command centers.
- **Precision components.** Machined parts, sub-assemblies, and mission-critical hardware from a vetted nationwide manufacturer base.
- **Industrial supply.** Broad-spectrum sourcing; if a federal program needs it, we can find it, vet it, and deliver it.
- **Logistics and sustainment.** Consolidation, kitting, and rapid-turn fulfillment across CONUS and OCONUS with full chain of custody.
- **Compliance and documentation.** DFARS- and FAR-aligned sourcing; CAGE-coded, audit-ready documentation on every shipment.

Differentiators

- **Obsolescence mitigation.** Locate, qualify, and deliver hard-to-find and end-of-life components.
- **Surge capacity.** Scale order volume on short notice without breaking schedule or spec.
- **Marketplace insight.** Real-time visibility into where the technology market is heading, applied to every quote.
- **Lifecycle support.** Sustained sourcing across the full program lifecycle, not just first article.
- **Nationwide supplier network** with a single accountable point of contact.

Past performance

Past performance and CPARS history available on request.

Contract vehicles

- **DLA DIBBS.** Daily RFQ coverage.
- Open market and simplified acquisition purchase orders.
- Subcontract and teaming agreements.

Response commitments

RFQ acknowledgement	Under 24 hours
Standard quote turnaround	Under 72 hours
Sources sought / RFI	Under 5 business days
Full proposal response	Under 10 business days
